

Coffee Shop Management System

Preliminary Design

Use Case: Managers can view activities

Manager Front View

The image shows a preliminary design for the Manager Front View of a Coffee Shop Management System. The interface is set against a light blue background. At the top, there is a header bar containing a 'Back' button on the left, the system title 'Coffee Shop Management System' in the center, and a 'Date Time' label on the right. The main content area features a table with three columns: 'Item ID', 'Item Quantities', and 'Item Prices'. The 'Item ID' column has eight rows, while the other two columns are empty. To the right of the table is a vertical stack of six green buttons: 'edit', 'add', 'find', 'delete', 'import', and 'export'. Below these buttons is a 'Note:' label followed by a large empty text box. At the bottom of the interface, there are three buttons: a green 'save' button on the left, and a red 'CANCEL' button and a green 'APPROVE' button on the right.

Item ID	Item Quantities	Item Prices

Buttons: Back, edit, add, find, delete, import, export, save, CANCEL, APPROVE
